Deir Ezzor 24 obtains new details about the massacre committed in Aiyash

Sources revealed to Deir Ezzor 24 network that yesterday, Monday, the leadership of Assad's forces in Al-Tala'ie camp gave orders to its elements in the area not to stop two cars coming from the side of Aiyash. The sources pointed out, that yesterday evening, checkpoints of the "National Defense" militia monitored vehicles coming from Aiyash village on the side of the badiyah near the 137th Brigade, and when the vehicles returned carrying livestock and some stuff, the checkpoints were given orders not to stop them, on the pretext that warplanes will target them later, The vehicles then returned to the road between Al-Shoula and Al-Panorama, where the headquarters of Fatimiyeon militia are located, also there is a training centre for "Fatimiyeon and Zainabyeon" militias near the 137th Brigade in the badiyah. In the same context, a relative of the victims told Deir Ezzor 24 that on Monday after the sunset, two men in a military uniform came to the tents of the victims, and asked them to lend them their car, on the pretext that they want to carry out a mission, but the "victims" refused to give them the car and kicked them out, then after about an hour, they returned with two vehicles and elements to commit their crime. Seven victims were killed by these assailants, who are still unknown, but all the current evidence suggests that they belong to an Iranian militia called "Fatimiyeon".

U.S. carries out airstrikes on Iranian positions near the Syrian-Iraqi border

Saturday, a position of the Iranian militias in Deir Ezzor province near the Border between Syria and Iraq was bombed by unknown aircraft, Deir Ezzor 24 network correspondent reported. According to sources, the bombing targeted a position of the Border Guard Battalion of an Iranian-backed militia on the Syrian-Iraqi border. Our correspondent in al-Bukamal city said that there were no sounds of aircraft during the bombing, which means that the bombing might be carried out by drones. The bombing resulted in the destruction of three military vehicles, which were seen today transported by large trucks to Al-Hajjana Street in Al-Bukamal city. It is indicated that the Iranian militias take al-Bukamal and its badiyah as its base in eastern Syria, where there are a number of the Iranian militias in the city and its countryside. It is noteworthy that U.S. forces have intensified their targeting of Iranian positions in Syria and Iraq over the past period.

Iran deducts 5,000 Syrian pounds from the salary of each element in its militias in Deir Ezzor, and the reason...!?

Source told Deir Ezzor 24 network that the Iranian Revolutionary Guard has deducted 5,000 Syrian pounds from each fighter in the Iranian militias. The sources noted that according to the Iranian officials, the 5,000 Syrian pounds was deducted “on the souls of the martyrs”. According to the same sources, the decision was met with disdain by the Iranian militia men, particularly the local elements. It is indicated that in the past few days, the United States has targeted positions of the Iranian militias in Syria and Iraq, killing a number of militiamen, including senior officials, the most prominent of them is Qassem Soleimani, commander of the Iranian al-Quds Force

The SDF prevent the workshops of Assad regime from completing a project in Deir Ezzor!

Deir Ezzor 24 network correspondent said that the Syrian democratic forces (SDF) have prevented workshops of Assad regime from extending the fibre-optic cable to Hasaka province. Our correspondent also said that the SDF prevented the workshops from completing the digging after they finished 5 km along “al-khurafi” road, requiring Assad regime to feed the areas of eastern Euphrates with internet in exchange for allowing the workshops to continue their work. Assad regime has shown no reaction to the SDF action, and the digging is still on hold. It is indicated that the (ADSL) Internet has been cut off in Hasakeh governorate since late 2012, due to the destruction of the fibre-optic cable, but nearly 15 days ago, Deir Ezzor Postal Service has started a project to install a cable from Deir Ezzor to Hasaka.

Popular tension takes place in the areas of Deir Ezzor under the control of Assad regime because of the Iranian militias!

Assad's forces, backed by a number of Iranian militiamen, carried out a campaign of arrests a few days ago against dozens of young men in the western Deir Ezzor countryside, (Al-Shamiyah), sources told Deir Ezzor 24 network. Our correspondent said that the campaign was carried out after the people of the western Deir Ezzor countryside staged demonstrations in Al-Shumeitiyah village and the areas around it, demanding Fatimiyeon and al-Nujabaa militias leave the western Deir Ezzor countryside, after the bloody campaign they carried out against the people of Deir Ezzor, which started with a massacre that resulted in the killing of more than 20 young men, 8 of them are from Deir Ezzor province, al-Busaraya tribe, in Raqqa countryside near the western Deir Ezzor countryside, in response to the killing of Iranian Revolutionary Guard commander Qassem Soleimani. There are still a state of tension among the people of the western Deir Ezzor countryside, that is under the control of Assad's forces, because of the retaliatory actions carried out by al-Nujabaa and Fatimiyeon militias, local sources told Deir Ezzor 24 network. It is indicated that many Iranian militias are deployed in the areas of Deir Ezzor west of the Euphrates to carry out Iranian agenda that aims at occupying the region at all levels.

CIRCESIUM

Circesium known in Arabic as al-Qarqisiya, was a Roman fortress city near the junction of the Euphrates and Khabur river, located at the empire's eastern frontier with the Sasanian Empire. It was later conquered by the Muslim Arabs in the 7th century and was often a point of contention between various Muslim states due to its strategic location between Syria and Iraq. The modern town of al-Busayra corresponds with the site of Circesium. The name Circesium or castrum Circense is of Graeco-Roman origin and translates as "the castle with the circus". Qerqusion (also spelled Qarqūsyōn) and al-Qarqīsiyā (also spelled 'Qarqīsiā) are the Syriac and Arabic versions of the Latin name, respectively. The Parthian transliteration, attested in Shapur I's inscription at the Ka'ba-ye Zartosht, is Krksy𐎠. The etymology of the name was known to the medieval Muslim geographer, Hamza al-Isfahani, who wrote al-Qarqīsiyā stemmed from qirqīs, the Arabicized form of "circus". The ancient site was situated at the eastern bank of the Euphrates River, adjacent to the confluence of the Khabur River.

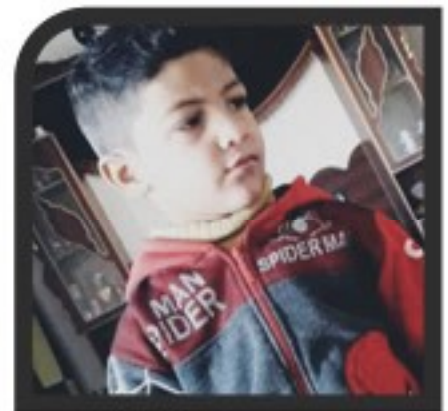

"Khaldoon Issam Zahrauddin", a member of Assad's forces, was killed in a clash with members believed to belong to Daesh in the eastern badiyah of Deir Ezzor.
