A militia commander in Deir Ezzor seizes a quarry with a private gravel

The commander of the Baqir Brigade militia and military security, Fadi Al-Afis, seized a quarry in Hawija Marat in the northeastern countryside of Deir Ezzor, according to the correspondent of DeirEzzor24 Network. He said that the quarry is owned by a group of the town's residents, and its mines were taken over after a dispute with the Fourth Division and bypassing the Department of Mineral Resources in Deir Ezzor. The quarry seized by the "Al-Afis" is distinguished by its wide area, which exceeds 10 dunums, and the quality of its production, which is described as naturally sorted. The price of one shift of gravel produced in this quarry is approximately 550,000 Syrian pounds.

A new phenomenon in the waters of Deir Ezzor wells portends an agricultural disaster

In the recent period, it was noticed that the water of the groundwater wells used for irrigation and agriculture in Deir Ezzor turned into salinity, in varying and somewhat large proportions, after it was normal water, according to what the DeirEzzor24 network correspondent reported. He said that this transformation of the water of the wells came despite their presence in the Euphrates Valley and the proximity of some of them to the river bed, in addition to the drying up of most of them as a result of the low level of those wells, which necessitated an increase in their depths. He added that the salinity of those wells caused soil salinity and most of them turned into swampy fields as a result of the failure of the agricultural associations operating on the Euphrates River, and the dependence of watering on those wells, in addition to unregulated irrigation in the third and fifth irrigation sectors, which depend on flooding the fields with water permanently by its investors, officers. Assad's forces and the influential Iranian Revolutionary Guard militia, and the lack of drainage channels for land reclamation

A member of the Iranian Revolutionary Guard militia in Al-Bukamal was poisoned by a drug

The administration of the Iranian hospital in the city of Al-Bukamal, east of Deir Ezzor, destroyed a number of medicines it had recently received as help from the Iraqi Popular Mobilization Forces, according to the correspondent of DeirEzzor24 Network. He said that the hospital administration destroyed boxes of medicine after a member of the Iranian Revolutionary Guard militia who was being treated in the hospital suffered drug poisoning after he was given medicine from the Popular Mobilization Militia, only to discover that it had expired. The Iranian Revolutionary Guard militia received aid from the Iraqi Popular Mobilization Forces, a few days ago, containing medical materials, medicines, medical supplies, and first aid materials.

Prayers for rain in Deir Ezzor require security approval from the Assad regime

The Directorate of Endowments of the Assad regime in Deir Ezzor rejected a request from some imams of mosques on their WhatsApp group to perform rain prayers after the recent rain in the area, according to a special source for DeirEzzor24 Network. The source said that the Awqaf Directorate stipulated obtaining security approval to perform the prayer, as it is held in the open and not in mosques, and determining its location and studying its date requires security approval and blessing from the leadership of the Baath Party branch. The people of the city of Raqqa performed the rain prayer at the beginning of this week in a mosque in the city of Raqqa due to the lack of rain in the current winter season.

Malfunctions of ATMs in Deir Ezzor cost employees sums of money

Employees and retirees from Deir Ezzor suffer from a problem that has worsened recently, as the ATM swallows the card when trying to withdraw salaries. DeirEzzor24 network correspondent said that this problem hinders the receipt of salaries by civilian retirees and military volunteers, and sums of salaries are deducted from their dues, especially the ATM at Al Furat University in the city of Deir Ezzor, which deducts no less than 20,000 Syrian pounds from the salary when the card is swallowed. Whoever swallows the ATM card must wait for the employee in charge for several hours until the faults are fixed.

Families from the city of Deir Ezzor leave their homes because of the Iranian Revolutionary Guard militia

In the past few days, the city of Deir Ezzor has witnessed the displacement of a number of families towards the countryside of Deir Ezzor, which is devoid of points and headquarters of the Iranian Revolutionary Guard militia, according to the correspondent of DeirEzzor24 Network. He said that this displacement movement came after the recent targeting, which was carried out by American drones, on an Iranian warehouse in the Al-Hamidiya neighborhood in the heart of Deir Ezzor, which resulted in the injury of civilians in addition to military personnel. The IRGC militia has recently resorted to infiltration among civilians and camouflaging its headquarters in residential neighborhoods in the cities of Deir Ezzor, Al-Mayadhin and Al-Bukamal because of the repeated Israeli and American targets.

Truffles are a new smuggling item from the Assad-controlled areas in Deir Ezzor

DeirEzzor24 Network has monitored an increase in truffle smuggling operations, recently, between the areas controlled by the Assad regime and SDF in Deir Ezzor. Our correspondent said that large quantities are being transferred via river smuggling, especially from the western countryside of Deir Ezzor "west of the Euphrates" to the corresponding areas "east of the Euphrates" under the control of the SDF. He added that the average price of one kilogram of truffles reached 25,000 Syrian pounds, as quantities of truffles are transported from Deir Ezzor to Hasakah and from there to Iraq. The truffle collection operations in the areas controlled by the Assad regime in Deir Ezzor witnessed many incidents this year, such as mine explosions and armed attacks that have claimed the lives of more than 20 truffle collectors so far.

Mutual bombing between America and Iran in Deir Ezzor

Alleged Global Coalition conducted airstrikes recently against Iranian militia positions in the city of Deir Ezzor, in response to the militia's targeting of Conico base with rockets, according to the correspondent of DeirEzzor24 Network. He mentioned that the Global Coalition in Conico gas plant, northeast of Deir Ezzor, was hit by missile strikes this evening, coming from Iranian militia sites on the second bank of the Euphrates River (west of the Euphrates). Nearly 4 members of the Iranian Revolutionary Guard militia were killed and others were injured, at dawn today, by bombing from American planes that targeted several militia sites in the city of Deir Ezzor and its eastern countryside, according to DeirEzzor24 Network. He said that American planes carried out, at dawn today, several raids on IRGC militia positions in Deir Ezzor, in response to the killing of an American contractor and the wounding of five members of the American forces and another American contractor, in a raid by an Iranian drone on a maintenance facility at a coalition base near from Al-Hasakah in northeastern Syria at approximately 1:38 p.m. The Iranian militias targeted, this morning, the base of the international coalition in the Al-Omar field, east of Deir Ezzor, this morning, with a salvo of missiles, one of which fell on a civilian house in the town of Dhiban, east of Deir Ezzor, leaving destruction in the house.

A delegation from the coalition visits the contact lines with Assad's forces in Deir Ezzor

an American military delegation affiliated with the coalition visited the homes of the "Al-Rayyes" family in the town of Jadeed Akidat in the eastern countryside of Deir Ezzor, according to the correspondent of Deir Ezzor 24 Network. He said that the reason for the delegation's visit to the family's homes is that they are in a sensitive area, as it is located on the western side and near the town of Tabiyat Jazira, which is under the control of Assad's forces and militias. He added that the tour was purely military, during which the borders between the areas controlled by the coalition, SDF, and Assad's forces were examined. This visit comes after the recent Iranian targeting of the coalition bases at the Conoco plant and the Al-Omar field. The closest point from the control of the Iranian militias and the Conoco plant does not exceed 4 km from the railway in the town of Khasham, east of Deir Ezzor.
